FCC

I am writing to ask that you not change the rules for radio broadcasting. I am a big Listener and fan of K-Love. It's a wonderful and encouraging radio station and my Favorite. In a world with a lot of negative influence, its important that we keep positive Influence like K-Love.

I am concerned if you have one board overseeing all broadcasters in an area it could cause problems for the Christian mission of the radio station.

I am also concerned that requiring additional staffing might force some good Christian Stations out of business because of the additional monthly expense.

Also this might force some of the translator stations off the air.

So Please do not change the rules.

We really need Christian stations like K-Love in our community and the country to give us not only the great music they play but the positive and encouraging words they give.

I know a lot of children who listen to K-Love and they love it. This is such a great influence, much better than a lot of junk that is on radio and t.v. today.

Thank you for allowing me to comment on this matter

Sincerely

Brenda Martinez
